

NA-SCW1

Noctua NA-SCW1 Cleaning wipes

The NA-SCW1 is a 20-piece set of individually packed NA-CW1 cleaning wipes for removing thermal compounds such as Noctua NT-H2 and NT-H1. Pre-moistened with a custom detergent mixture, these wipes are ideal for cleaning CPUs, GPUs and the contact surface of heatsinks in a quick and efficient manner. Thanks to their large size (150x120mm), one pad is usually enough to clean both the chip and the cooler.

Caution

- Only use this wipe to remove thermal compound from heatsinks, CPUs, GPUs, etc.
- Do not use if you are allergic to alcohol.
- Do not ingest. Seek medical advice immediately if ingested.
- Keep away from children and pets.
- Avoid contact with eyes, mouth or open wounds. Rinse with water if contact occurs.
- Store at room temperature, keep away from heat and open fire.
- Discard in domestic waste, do not flush down the toilet.

LOGISTICAL DATAS

Product Labeling

Noctua NA-SCW1
