

NOCTUA NA-SAV2 chromax.white

Anti-Vibration Mounts

The NA-SAV2 chromax.white is a fan accessory set consisting of 20 yellow NA-AV2 anti-vibration mounts for up to 5 fans. Replacing standard fan screws, the NA-AV2 mounts enable the convenient, quick and vibration-free installation of fans in standard mounting holes for case fans. At the same time, the chromax.white edition allows the addition of subtle white accents to Noctua's redux and industrialPPC fans in order to colour-coordinate them with individual build themes.

Vibration-free installation for lower noise emission

Fans installed with standard fan screws can transmit minute vibrations to the PC case, which can lead to annoying resonance noises. Switching standard fan screws for NA-AV2 mounts can drastically reduce these structure-borne noises by effectively decoupling the fan from the PC case.

Double-side design

Compared to conventional single-side anti-vibration mounts, the NA-AV2's double-side design makes them much easier to work with in space-restricted environments or placements where the fan's mounting holes are difficult to reach.

Extra soft and highly tear-proof

The use of premium-grade silicone makes the NA-AV2 mounts both extra soft and highly tear-proof, allowing them to combine efficient decoupling with excellent longevity and ease of use.

Compatible with most Noctua and third-party fans

The NA-AV2 mounts are designed to work with most open-flange fans with standard 4.3mm mounting holes. They are compatible with all current Noctua fans (including redux and industrialPPC models) as well as many third-party fans.

Maximising colour choices, Noctua's chromax accessories give users the option to colour-customise their fans in order to create PC builds with specific, focused aesthetics. Red, blue, green, yellow, black and white versions make it possible to match today's most popular build colour schemes.

Product name	Noctua NA-SAV2 chromax.white
EAN	9010018200058
UPC	841501120053
Packaging dimensions (HxWxD)	150x110x29 mm
Weight incl. packaging	68 g
Warranty	6 years
Packaging unit	40 pcs
Packaging dimensions / unit (HxWxD)	320x320x240 mm
Weight incl. packaging / unit	3.30 kg
Scope of delivery	20 anti-vibration mounts
