Noctua NA-SCW1 Cleaning wipes

The NA-SCW1 is a 20-piece set of individually packed NA-CW1 cleaning wipes for removing thermal compounds such as Noctua NT-H2 and NT-H1. Pre-moistened with a custom detergent mixture, these wipes are ideal for cleaning CPUs, GPUs and the contact surface of heatsinks in a quick and efficient manner. Thanks to their large size (150x120mm), one pad is usually enough to clean both the chip and the cooler.
