Noctua NA-SEC3
3x 60cm 4-Pin Extension Cables

The NA-SEC3 is a fan accessory set consisting of three extra-long, fully sleeved NA-EC3 60cm extension cables. The NA-EC3's 4-pin connectors are compatible with both 3-pin and 4-pin PWM fans, and the cables can be daisy-chained, making them ideal for installing fans in larger enclosures or other applications where more than 60cm reach is required.

60cm reach
Compared to Noctua's standard NA-EC1 30cm extensions, the NA-EC3 cables have twice the reach, which makes them ideal for use in large PC cases as well as other applications that require extra reach. The three cables from the NA-SEC3 set can be combined for a total length of 1.8m.
4-pin connector
The NA-EC3 cables feature a 4-pin connector that works with both 3-pin and 4-pin PWM fans. As such, the cables are fully compatible with all current Noctua 5V, 12V and 24V fans as well as many third-party models. Additionally, thanks to the keyed design of the connector, there is no risk of misaligning 3-pin fans.

High-quality black sleeving
The use of premium-grade silicone makes the NA-AV3 mounts both extra soft and highly tear-proof, allowing them to combine efficient decoupling with excellent longevity and ease of use.

5 defined pawls
The NA-EC3 cables come with Noctua's signature sleeving that is highly resistant against mechanical wear as well as heat and flames (UL 94 V-0 classification). As such, the NA-EC3 cables are suitable for use in critical applications and harsh industrial environments.

LOGISTIC DATA

Product name
Noctua NA-SEC3

EAN
9010018201130

UPC
841501121135

Packaging dimensions (HxWxD)
150x110x30 mm

Weight incl. packaging
88 g

Warranty
6 years

Packaging unit
40 pcs

Packaging dimensions / unit (HxWxD)
320x320x240 mm

Weight incl. packaging / unit
