## NOCTUA NF-A20 PWM NOCTUA NF-A9 PWM NOCTUA NF-A8 PWM

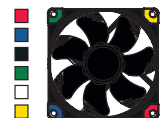

Having received dozens of awards and recommendations from international hardware websites and magazines, the NF-A20 PWM, NF-A9 PWM and NF-A8 PWM have established themselves as a default choice when it comes to premium-quality 200mm, 92mm and 80mm fans. The chromax.black.swap edition combines their signature quiet cooling performance with an attractive all-black design and a bundle of self-adhesive red, white, blue, green, yellow and black anti-vibration pads that allow the colour-customisation of the fans to match individual build colour schemes.

Topped off with Noctua's trusted premium-grade SS02 bearing, more than 150,000 hours MTTF and a 6-year manufacturer's warranty, the chromax.black.swap fans are the perfect choice for all users who value individual, focused build aesthetics just as much as class-leading quality and performance.
