Award-winning NH-D15 cooler

Tens of thousands of enthusiast users all over the world swear by the NH-D15's quality and performance. Recommended by more than 200 international hardware websites and magazines, it is renowned for being one of the best high-end coolers on the market.

Dedicated special edition for AM4

The NH-D15 SE-AM4 brings the NH-D15's signature quiet cooling performance to AMD's new AM4 platform. With its supreme capacity at extreme heat loads, it allows overclockers to push their AM4 systems to the limit and silent enthusiasts to run the fans at super-low speeds.

SecuFirm2™ mounting system for AM4

Noctua's SecuFirm2™ mounting systems have become synonymous with quality, safety and ease of use. In order to achieve the best compatibility and to match the airflow path inside the case, the SecuFirm2™ mounting for AM4 makes it possible to install the cooler either in standard orientation or turned by 90°.*

Widened fin stack and expanded heatpipe layout

Compared to the NH-D14, the NH-D15's fin-stack has been widened from 140 to 150mm and its heatpipes are now spaced further apart, which allows for a more uniform heat distribution over a larger surface area and thus contributes to the NH-D15's superior efficiency.

PWM support and Low-Noise Adaptors

The NF-A15 premium fans supplied with the NH-D15 support PWM for convenient automatic speed control through the motherboard. In addition, the maximum fan speed can be reduced from 1500 to 1200rpm using the supplied Low-Noise Adaptors for even quieter operation.

6-year manufacturer's warranty

Noctua products are renowned for their impeccable quality and outstanding longevity. Like all Noctua fans, the supplied NF-A15's feature an MTTF rating of more than 150,000 hours and the entire NH-D15 package comes with a full 6-year manufacturer's warranty.
