The NH-U9F is the newest version of the NH-U9, which won over 50 awards and recommendations from leading international web sites and magazines. The NH-U9F can be rotated by 90° on all sockets, boasts full compatibility with AMD's new AM2 socket and comes equipped with a Noctua 92mm fan, which has a minimum noise rating of only 7dB(A)*. Thanks to the 4 Dual-Heat-Pipes, 37 aluminium cooling fins with a total surface area of more than 3800cm² and soldered joints for optimal heat-transfer, the Noctua NH-U9F achieves superior cooling performance at minimum noise levels.
