

Noctua NM-i4189 Mounting Kit

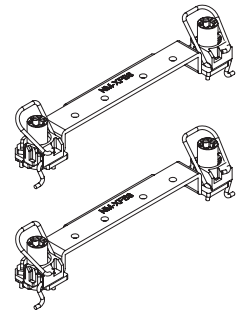

NM-i4189

The NM-i4189 mounting-kit enables the installation of Noctua's DX-3647 and TR4-SP3 series coolers to Intel's LGA4189 platform (Whitley), for Ice Lake-SP based 3rd generation Xeon Scalable (Platinum, Gold, Silver or Bronze) processors and W-3300 series workstation CPUs (Ice Lake-64L). Integrating standard Intel parts such as the anti-tilt mechanism, Torx® T30 PEEK nuts and LGA4189-4 (P4) CPU carrier frame, the NM-i4189 is fully compliant with Intel's installation guidelines and provides a familiar mounting procedure for experienced LGA4189 users. A Torx® T30 mounting tool is included.
