

NM-AM4

NM-AM4 NOCTUA MOUNTING KIT

LOGISTICAL DATA

Product name

Noctua NM-AM4

EAN-No.

901001820035-5

UPC-No.

84150112035-0

Dimensions (HxWxD)

150 x 110 x 30 mm

Weight

190 gr

Warranty

6 Years

MSPR

7.90 EUR

Packaging unit

60 Pcs.

Dimensions / Unit (HxWxD)

370 x 310 x 325 mm

Weight / Unit

12.40 kg

SCOPE OF DELIVERY

2x NM-AMB4 mounting bars

2x NM-AMB5 mounting bars

2x NM-SFB2 fastening brackets

4x NM-SSC1 short screws

4x NM-ALS1 screws

4x NM-APS4 plastic spacers

Continuing Noctua's tradition of supplying customers with its premium-class SecuFirm2™ mountings free of charge, the NM-AM4 kit allows Noctua users to upgrade their coolers to AMD's AM4 socket. It is backwards compatible with most Noctua coolers since 2005 and has been designed to combine outstanding reliability, optimal contact pressure and easy, straightforward installation. Bringing the trusted SecuFirm2™ quality to AMD's AM4 platform, the NM-AM4 is an enthusiast-grade mounting kit that meets the highest demands in safety, performance and ease of use.

Trusted SecuFirm2™ quality

Over the years, SecuFirm2™ has become synonymous with impeccable long-term stability and flawless craftsmanship. Enthusiast users and industry clients alike trust the time-tested quality of Noctua's professional mounting systems.

Perfect contact pressure

SecuFirm2™ mounting systems use high-grade coil springs to achieve perfect contact pressure. No guesswork regarding how far to tighten the mounting screws, no risk of damaging the socket with excessive pressure!

Integrated fastening brackets

Noctua's SecuFirm2™ systems feature fully integrated fastening brackets with pre-fixed pressure screws and springs, which greatly facilitates the installation process. No fiddling with loose screws and springs!

Tailor-made for AM4

In order to cut costs, many manufacturers use cross-platform parts for both Intel and AMD, which can cause compatibility issues. Noctua's SecuFirm2™ mounting system for AM4 has been tailor-made for this socket in order to ensure optimal compatibility.

Backwards compatibility

Noctua CPU coolers are renowned for being safe, long-term investments that can be used for several CPU generations. Accordingly, the SecuFirm2™ kit is fully backwards compatible with most Noctua coolers since 2005, so even 10-year-old coolers can be made compatible with the latest AMD socket.

Cooler can be installed turned by 90°

Coming with two different sets of mounting bars, the SecuFirm2™ system allows the users to choose the orientation of the cooler according to their preferences in order to ensure best compatibility and optimal alignment with the airflow path inside the case.*

* The possibility of installing the cooler turned by 90° depends on the free space around the CPU socket and can thus vary from motherboard to motherboard.

Socket - & Cooler - compatibility

Socket compatibility	AM4
Free upgrade	NH-C12P, NH-C12P SE14, NH-C14, NH-C14S, NH-D14, NH-D14 SE2011, NH-D15, NH-D15S, NH-D9L, NH-L12, NH-L9x65, NH-U12, NH-U12F, NH-U12P, NH-U12P SE1366, NH-U12P SE2, NH-U9, NH-U9B, NH-U9B SE2, NH-U9F, NH-U12DX, NH-U12DX 1366, NH-12DX i4, NH-U9DX i4, NH-U9DX 1366, NH-U12DO, NH-U9DO.
Paid upgrade	NH-U14S, NH-U12S, NH-U9S.
Incompatible (please choose the NM-AM4 US kit for these models)	NH-U12DO A3, NH-U9DO A3, NH-L9i, NH-L9a.*

* We also aim to provide an upgrade-kit for NH-L9a, but due to some late changes to the AM4 platform, it is not yet clear whether installation will be possible. We are currently exploring the available options and will provide more information at a later date.
