NV-FS2

Multi-Purpose Fan Set for Device Cooling with Award-Winning NF-A12x25 120mm Fan, Anti-Vibration Gasket and Pads, Fan Grill and NA-FC1 Speed Controller

The NV-FS2 is a premium grade multi-purpose fan set that is ideal for adding extra cooling to electronic devices such as A/V receivers, DVRs, video game consoles, stereo equipment, routers or storage solutions – literally any equipment that has ventilation holes at the bottom, at the top or at the side. Additionally, the NV-FS2 can also be used as a simple side-ways blowing desk fan. At the heart of the set, the award-winning NF-A12x25 PWM fan combines outstanding airflow performance with excellent quietness of operation. The pre-installed NV-MPG1 multi-purpose gasket and NV-MPP1 pads not only dampen vibrations but also make it possible to achieve a tight seal in top-exhaust applications and give the fan breathing space when it is placed underneath devices. At the same time, they enable the fan to be placed blowing sideways on level surfaces. Thanks to the included NA-FC1 controller, the fan speed can be adjusted from strong ventilation all the way to near-silent operation. An NA-FG1 fan-grill is pre-installed for extra protection. For powering and connecting the fan, the set includes Noctua's NV-PS1 230/115V high quality universal power supply as well as an NV-EC4 1m extension cable that can be installed before or after the controller depending on individual preferences. In sum, the NV-FS2 is a comprehensive premium package for adding extra cooling to a wide range of electronic devices as well as for various other ventilation tasks such as increasing convection from radiators or heaters.

NV-MPG1 gasket and NV-MPP1 pads

The NV-FS2 fan set comes with both the NV-MPG1 gasket and NV-MPP1 pads pre-installed. In combination, they turn the NF-A12x25 into a highly versatile multi-purpose fan that's ideal for various device cooling applications: Blowing in cool air from the bottom or the side, exhausting hot air from the top, almost anything is possible!

Tight seal for maximum efficiency

The NV-MPG1 not only prevents the transmission of vibrations, but also acts as a gasket that creates a tighter seal between the fan and the device it's placed on. Reducing leak flows between the fan and the device, the NV-MPG1 thereby ensures maximum ventilation efficiency.

Offset gasket for optimal exhaust performance and acoustics

When a fan is placed on top of a device exhausting air, drawing air through the device's ventilation holes may create unpleasant turbulence noises and reduce the fan's efficiency. By introducing a 10mm offset between the fan and the device, the NV-MPG1 can reduce influx turbulences significantly, thereby improving both airflow performance and running smoothness.

Award-winning NF-A12x25 120mm fan

Having received more than 100 awards and recommendations from international PC hardware websites and magazines, Noctua's NF-A12x25 has set a new benchmark for 120mm computer fans. Its state-of-the-art construction, superior efficiency and superb quietness of operation also make it an ideal choice for demanding home, office and multi-purpose ventilation tasks.

6 years manufacturer's warranty

Noctua products are renowned for their impeccable quality and outstanding longevity. Like all of them, the NV-FS2 set is built to last, and all the included parts are covered by Noctua's 6-year manufacturer's warranty.

NV-FS2 SPECIFICATIONS

Colour	Black
Height	46 mm
Width	136 mm
Depth	136 mm
Weight	354 g
Fan	Noctua NF-A12x25 PWM chromax.black
Cable length	2.85m (20cm fan cable, 135cm NV-PS1, 30cm NA-AC10, 100cm NV-EC4-1m)
Warranty	6 years

LOGISTIC DATA

Product name
Noctua NV-FS2

EAN
9010018900217

UPC
841501190216

Packaging dimensions (HxWxD)
53x194x236 mm

Weight incl. packaging
730 g

Warranty
6 years

Packaging unit
10 pcs

Packaging dimensions / unit (HxWxD)
23.1x49.6x29.3 mm

Weight incl. packaging / unit
8.10 kg

SCOPE OF DELIVERY

NF-A12x25 PWM chromax.black premium fan
NV-MPG1-12.black multi-purpose gasket
4x NV-MPP1.black multi-purpose pads
NA-FG1-12 120mm fan grill
NA-FC1 fan controller

Cables & Adaptors

NA-AC10 barrel to 4-pin adaptor cable
NV-EC4-1m extension cable
NV-PS1 power supply
US socket adaptor (Type A)
EU socket adaptor (Type C)
UK socket adaptor (Type G)
