### Multi-purpose gasket for 120mm fans

# NOCTUA NV-MPG1-12
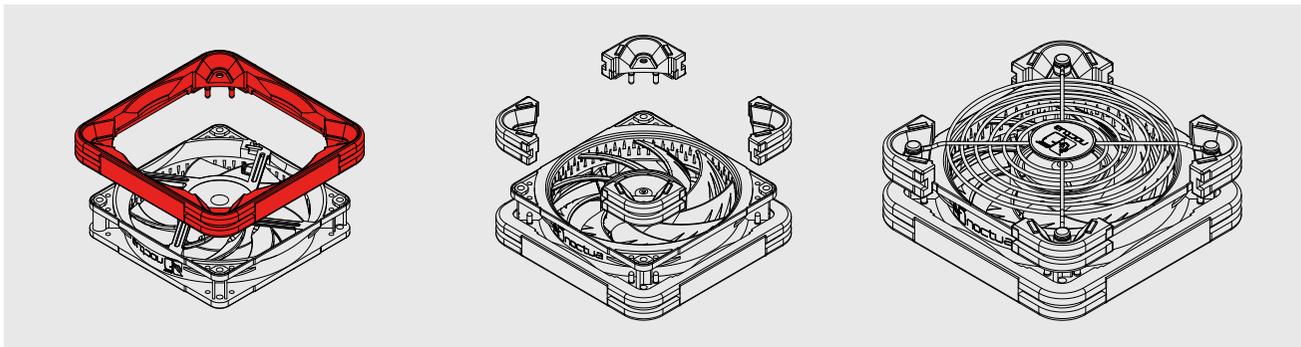

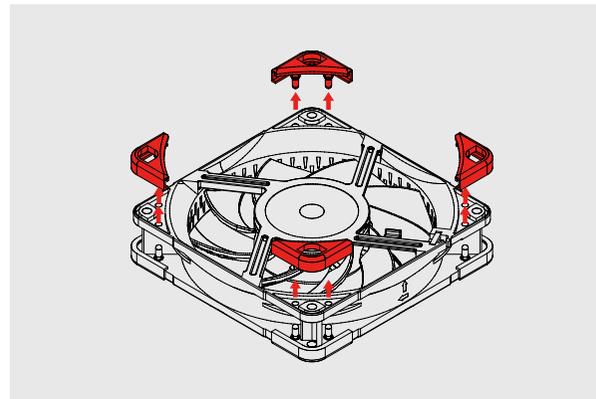

## Multi-purpose gasket for 120mm fans

The NV-MPG1-12 is a multi-purpose anti-vibration gasket for Noctua 120x25mm fans that is ideal for placing a fan on top of A/V receivers, DVRs, video game consoles, stereo equipment, routers, home radiators or other devices that have ventilation holes on top and can benefit from extra airflow.
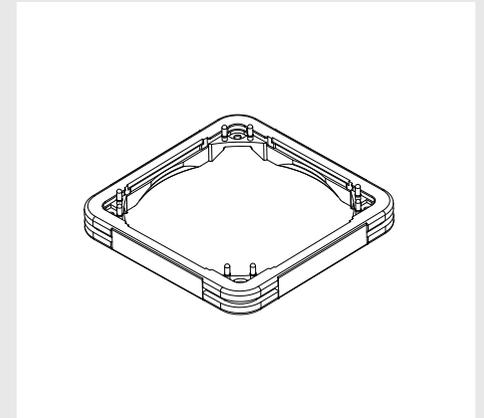

## Installation

To install the NV-MPG1-12 multi-purpose gasket, first remove the fan's default anti-vibration pads.

Then, simply press the gasket onto the fan until the pins go through the mounting holes and the lip wraps around the corners of the fan.

Ensure that the rubber pins are fully pulled through the fan frame so that they click into place.
